## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12-07-2005 has been entered.

### ***Allowable Subject Matter***

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: Applicant's argument filed on 12-07-2005 is convincing. As argued by the applicant on pages 6-8, the uniquely distinct features **the capacitance profiles identifying a simultaneous presence of at least two user input objects on the capacitive touch sensor pad; examining the capacitance profiles to determine an occurrence of a single gesture resulting from the simultaneous presence of the at least two user input objects** is not shown or suggested by the prior arts Tannenbaum et al (5,252,951), Dunthorn (4,914,624) and Mellitz et al (5,256,975).

The prior arts Tannenbaum et al (5,252,951), Dunthorn (4,914,624) and Mellitz et al (5,256,975) fails to recite or disclose the uniquely distinct features, "a method of processing a user input received on a capacitive touch sensor pad including a matrix of X and Y conductors, the method comprising the steps of **developing capacitance profiles in one of an X direction and a Y direction from the matrix of X and Y conductors, the capacitance profiles identifying a simultaneous presence of at least two user input objects on the capacitive touch sensor pad; examining the capacitance profiles to determine an occurrence of a single gesture resulting from the simultaneous presence of the at least two user input objects; and indicating the occurrence of the single gesture resulting from the simultaneous presence of the at least two user input objects.** "

The closest prior art, Tannenbaum et al (5,252,951), Dunthorn (4,914,624) and Mellitz et al (5,256,975), either singularly or in combination, fail to anticipate or render the above bold and underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to VIJAY SHANKAR whose telephone number is (571) 272-7682. The examiner can normally be reached on M-F 7:00 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, BIPIN SHALWALA can be reached on (571) 272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
